

PROGRAMMER

Infrared Remote Control Programmer

TPIR

- ❖ INNOVATIVE
- ❖ CONVIVIAL
- ❖ HOURS / DAYS PROGRAMS
- ❖ INFRARED COMMUNICATION
- ❖ SAVE ENERGY

Applications

Programming from distance of:

- ❖ Electrical Convectors
- ❖ Electrical Radiant Heaters
- ❖ Convector-Radiators
- ❖ Storage Radiators / Convectors

Working Principle

This remote programmer, TPIR, associated to an infrared receiver, allows the programming of all emitters of electrical heating, equipped with an electronic regulator supplied with provision for standard 4-command pilot cable.

The transfer of programming parameters from the programmer towards the received is achieved by infrared transmission.

Product & Points

A Single infrared control programmer which allows the user to create and manage an unlimited number of zones.
